BARGAIN!

YOU GET 11 PLANTS — PAY FOR ONLY 10!

YOU SELECT ANY COMBINATION OF 11 PLANTS
(SAME PRICE)—CYMBIDIUM, CYPRIPEDIUM, **OR**
COMBINATION OF BOTH—BUT YOU ONLY PAY FOR 10!

YOU CAN'T BUY BETTER SEEDLINGS

WE AGAIN TAKE PLEASURE in presenting a new offering of select hybrid seedlings. It is well known that our stock of fine stud plants is *most extensive*, and it includes the *finest proven and prize winning varieties in existence*. We are, of course, continually adding to this fine stud collection both from our own originations, as well as from the finest new developments from all over the world. Many of these new creations are represented in this listing.

SPECIALIZING

We specialize in *Cymbidium* and *Cypripedium Orchids*. Along with these, we have a stock of top quality *Vandas*. Our area here and in the Hope Ranch of Santa Barbara makes our nursery one of the largest wholesale and retail nurseries devoted to the development and production of these fine orchids.

This offering is not only outstanding in point of quality, but we believe that it represents the finest selection ever offered.

A visit to the Nursery will give convincing evidence of the superb quality of our stud plants and of our stock. The hundreds of repeat orders and enthusiastic letters which we receive from our customers are not only a great source of pleasure to us, but are your assurance of quality and satisfaction as well. You may order by mail or make your selection at the Nursery—your order will receive our personal attention. All of the plants listed in this offering are *sturdy plants, well rooted and healthy!* In some instances the smaller size seedlings are grown in plant bands and will be shipped in the bands or bare root as the case may be. **We are open every day—including Sunday.**

BREEDING

IN OUR BREEDING PROGRAM, we keep in mind the need to develop and grow many different types to meet the ever changing tastes of the public. For *Cymbidiums*, this necessitates the use of all present types, which include the finest of Diploid and Tetraploid parents. We are also using the one known Pentaploid parent for breeding newer and finer cymbidiums. *Cypripedium* seedling production receives the same careful thought and planning, along with the use of world renowned parent stock which of course is so necessary to obtain the desired results. By careful analysis of the many years of study and work that has gone into the breeding of flowers, a hybridist may gain the knowledge and understanding of what it takes to make new and successfully modern hybrids. Add to this, careful use of PROVEN parent stock, and you are assured of the best results.

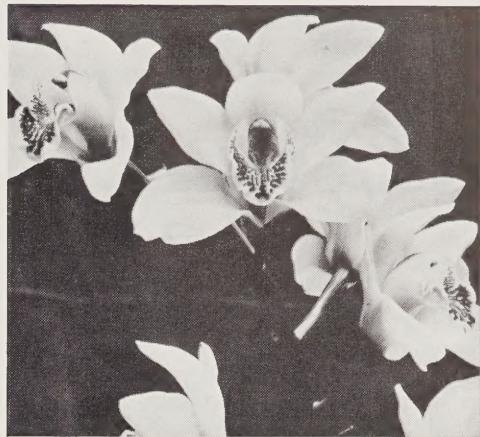

WITH A VIEW TO THE FUTURE—We offer the following crosses, which are the result of long range planning and observation, with plant vigor, free flowering characteristics, as well as high flower quality being carefully considered.

*REMEMBER THE PRIZE WINNERS OF TOMORROW
WILL COME FROM THE FINE SEEDLINGS OF TODAY!*

Flamingo 'Nobilior' F.C.C.-R.H.S.

Alexanderi 'Westonbirt' F.C.C.-R.H.S.

CULTURE: Cymbidium seedlings can be grown with mature plants and under the same conditions (see our cultural bulletin or catalog). However, to obtain somewhat faster growth the following suggestions are offered: 50° F. - 65° F. minimum temperature, 1000-1500 ft. candles of light, an open light compost (such as our M-3 formula), adequate watering (don't let the plants dry out), and a regular feeding program with a well balanced fertilizer such as Gaviota Orchid Fertilizer. Feed approximately every two weeks unless the plants become too soft and dark green. If this occurs, stop feeding for a month or 6 weeks.

UNFLOWERED CYMBIDIUM SEEDLINGS*

NO.	NAME	SIZES & PRICES			
		Length of Leaves 6"-10"	10" up	First Bulb & Growth	Pre- Flowering
L-57	BLUE RIVER (Beatrice 'Superba' x Blue Smoke 'Mandarin') A fine gold type, free flowering combined with an extra large fine green. Both parents have good red banded lips and many fine things are assured.	*	*	7.50	12.50
L-64	BLUE SMOKE 'MANDARIN' x NELL GWYNNE, FINE VAR. Two fine large flowering parents, both good producers, give promise of very choice flowers with long spikes of green to golden colored flowers.	*	*	7.50	12.50
L-69	WOODHAMSIANUM 'CONCOLOR' x BLUE SMOKE 'MANDARIN' Many choice clear lucent green flowers are expected from this combination.	*	5.00	7.50	12.50
L-86	MIRETTA x ALEXANDERI 'WESTONBIRT' F.C.C.-R.H.S. This cross speaks for itself. A few have flowered and are proving to be fine pastel colored flowers of large size, fine shape and texture. Limited quantity. Note: Bulb may not be made up.	*	*	7.50†	12.50
L-95	FANTASIA (Babylon 'Carpentier's' x Susette 'Perfection' A.M.-R.H.S.) This new hybrid bears pink, cream and yellow toned flowers on strong tall spikes. A robust and fast grower which is expected to produce many fine varieties.	*	*	*	12.50
(E)L-205	TRACYANUM x BLUE SMOKE 'MANDARIN' We consider both parent plants to be the finest varieties. Each bears flowers with over a 5" spread, and 15 to 20 and more per spike. These seedlings are very strong growing and should produce many large and valuable flowers for the early market in green, yellow and gold tones.	*	5.00	7.50	12.50
(E)L-270	AUTUMN TINTS 'HOLIDAY' x GUELDA, CHOICE VAR. Two fine early flowering hybrids should, we feel, product many very valuable and choice Christmas flowering offspring, on tall upright spikes. These are a sturdy lot and should flower on small plants. White flowers should prevail.	*	5.00	7.50	12.50
L-278	LUTESCENS, FINE VAR. x FAIRY PRINCESS, VERY FINE VAR. The expectancy from this combination is very high and should present a quantity of choice flowers of beauty and heavy substance. Colors expected are mainly fine pinks and yellows.	*	5.00	7.50	*
(E)L-283	AUTUMN TINTS 'HOLIDAY' x PETER GRIMES, FINE VAR. The seedlings from these two fine early flowering hybrids should yield a high percentage of very valuable Christmas flowers, mainly in choice white and pink shades. We are looking forward with a great deal of anticipation to this lot.	*	*	7.50	*

***SPECIAL — With each 10 seedlings purchased we will include one free, or on volume seedling orders the following discounts will be granted.**

on \$200.00 or over...20% discount — \$500.00 or over...25% discount — \$1000.00 or over...30% discount.

NOTE: 20% discount to dealers (including Nurseries or Florists), or quantity discount to apply, whichever is greater.

(E)IL-284	HANBURYANUM 'MAGNIFICUM' A.M.-R.H.S. x JOHN SANDER, CHOICE VAR.	.	.	7.50	.
	Another meritorius early flowering cross with many interesting colors sure to be seen.				
(E)IL-312	AMDORA x LUSTROUS	*	5.00	7.50	.
	This cross should be similar to L-283 above. Also early flowering.				
L-314	WOODHAMSIANUM, CONCOLOR x FLAMINGO 'NOBILIOR' F.C.C.-R.H.S.	*	5.00	*	.
	Here we have used the famous 'pentaploid' parent, Flamingo, 'Nobilior,' whose chromosome count is yet one step above that of the fine parent Alexanderi 'Westonbirt,' which is a 'tetraploid.' This group of seedlings should produce fine quality flowers of heavy substance and good form. Colors should include fine white, pink, yellow with the possibility of some delicate green shades. Flamingo 'Nobilior,' has produced many fine things such as Queen Mary and Queen Elizabeth, to name but two.				
(E)IL-346	INDIAN SUMMER 'NOCTURNE' x LILLIANA, CHOICE VAR.	*	5.00	*	.
	This vigorous group of seedlings is expected to produce long spikes of large early flowers in shades of rose and red. There should be some outstanding flowers result from this cross.				
L-375	BERNADETTE x PAUWELSII 'COMTE de HEMPTINNE' F.C.C.-R.H.S.	3.00	5.00	*	.
	Bernadette has proven one of the most successful recent hybrids derived from Alexanderi 'Westonbirt.' The results should give the finest in 'Westonbirt' types, with a good percentage of lovely pinks.				
L-376	PAUWELSII (Pauwelsii 'Comte de Hemptinne' F.C.C.-R.H.S. x Self)	*	5.00	*	.
	This world famous tetraploid parent 'self crossed' has exceptional possibilities from almost every standpoint—fine large heavy flowers, long spikes, striking colors and new breeding stock.				
L-377	SWALLOW (Alexanderi 'Westonbirt' F.C.C.-R.H.S. x Pauwelsii 'Comte de Hemptinne' F.C.C.-R.H.S.)	3.00	5.00	*	.
	A remake of this famous cross, using both of the 'tetraploid' parents. Unexcelled as a heavy producer of prize winning quality—beautiful pastel shades.				
L-379	BODMIN MOOR (Alexanderi 'Westonbirt' F.C.C.-R.H.S. x Erica Sander)	3.00	5.00	*	.
	Again a remake of a famous cross that produces top quality flowers on long spikes. Pastels in ivory, cream and pale green tones.				
L-492	PAUWELSII (Pauwelsii 'The King' A.M.-R.H.S. x Pauwelsii 'Comte de Hemptinne' F.C.C.-R.H.S.)	*	5.00	*	.
	Combining the famous 'tetraploid' with the large 'diploid' form will we believe be a top producer of quality flowers. A large percentage should be very desirable shades of pink and red.				
L-493	CLARISSA 'SAMARKAND' x PAUWELSII 'COMTE de HEMPTIENNE' F.C.C.-R.H.S.	*	5.00	*	.
	Again using the famous 'tetraploid,' with one of the finest large heavy rose colored flowers carried on long spikes, should assure some of the best pink, rose and red flowers to be seen.				
L-494	CANDACE 'MARDI GRAS' x CERES 'F. J. HANBURY' F.C.C.-R.H.S.	*	5.00	*	.
	We are confident that many choice red colored flowers will result from this combination.				
L-722	ALEXANDERI 'WESTONBIRT' F.C.C.-R.H.S. x MIRIAM	3.00	5.00	*	.
	Another triploid cross for heavy production of fine high quality flowers of large size and heavy substance. Green, yellow, and white colors should predominate.				
L-725	ALEXANDERI 'WESTONBIRT' F.C.C.-R.H.S. x CITADEL	3.00	5.00	*	.
	Very fine white flowers should prevail with some pink forms to be seen as well. Using the famous tetraploid parent, in a cross such as this, again assures many of the very best flowers to be seen.				
L-831	CLARISSA 'MARS' x AURIBROOK 'BRILLIANCE'	3.00	5.00	*	.
	Choice red colors are assured from this combination with fine growth habit and excellent flower production on long spikes.				
L-889	SICILY 'GREEN MONARCH' B.A.-O.S.S.C. x PEARL 'MAGNIFICUM' F.C.C.-R.H.S.	3.00	*	*	.
	A percentage of these should flower for the holiday season. Primarily the colors should be in green and yellow tones, with flowers of large size on long arching spikes. The Sicily used is one of the finest and largest known (over 6" flowers).				
L-913	JOHN RUCK x ALEXANDERI 'WESTONBIRT' F.C.C.-R.H.S.	3.00	*	*	.
	A very fine dark rose colored form of John Ruck, with the celebrated Alexanderi, give promise of another excellent group of top quality producers of rose pink to white hybrids.				

L-914	CLAUDONA 'BRILLIANT' x PAUWELSII 'COMTE de HEMPTINNE' F.C.C.-R.H.S.	3.00	5.00	*	*
	Huge flowers of green to gold colors with large and brilliant lips on heavy long spikes should be the rule rather than the exception. We are looking forward to some outstanding hybrids from this cross.				
L-921	FLAMINGO (Merlin x Alexanderi 'Westonbirt' F.C.C.-R.H.S.)	3.00	*	*	*
	A remake of a most distinguished cross with the best parents; one that has produced the only known and fine pentaploid parent plant, the famous Flamingo 'Nobilior' F.C.C.-R.H.S. Colors, primarily white.				
L-939	ABONNA x PAUWELSII 'COMTE de HEMPTINNE' F.C.C.-R.H.S.	3.00	*	*	*
	Yet another group of triploid hybrids known for vigorous growth and heavy production, characteristic for these types. Dark green to light golden colored flowers are the general expectancy for this hybrid.				
L-941	BALINDA 'YULETIDE' x AUTUMN TINTS 'HOLIDAY'	3.00	5.00	*	*
	As the varietal names imply this will be a group of plants to look to for many lovely pink flowers for the holiday season. Compact yet strong growing, these seedlings should be given consideration by those desiring early flowers.				
L-949	CLARISSA 'IMPERIAL' x BABYLON 'CASTLE HILL' F.C.C.-R.H.S.	3.00	*	*	*
	Excellent colors of red and pink should prevail from this noteworthy combination. One parent, a 'diploid' with rose color; the other a 'tetraploid' pink (both with very fine large flowers) points to another strong producing 'triploid' of the best possible quality.				
L-950	PRESIDENT WILSON (Lowianum 'Concolor' x Alexanderi 'Westonbirt' F.C.C.-R.H.S.)	3.00	5.00	*	*
	A remake of a famous and exceedingly fine triploid hybrid. The 'concolor' form of Lowianum has been used here to produce very light to pure white forms of large flowers of heavy substance with tall strong spikes.				
(E)L-1038	BIMBO x PEARL 'MAGNIFICUM' F.C.C.-R.H.S.	3.00	*	*	*
	The very fine early flowering Bimbo, of dark green color with a ruby-red banded lip, combined with the golden colored Pearl 'Magnificum' F.C.C.-R.H.S. will produce many choice and important early flowering hybrids of green and gold tones. Plants to carry long many-flowered spikes, we are sure.				

UNFLOWERED CYPRIPEDIUM SEEDLINGS*

We present this offering with the assurance that many outstanding cypripedium flowers of merit will result from our long range planning, and the knowledge of what is necessary to produce the superior quality so important in today's highly developed cypripedium hybrids.

Our stock of stud plants include many of the finest prize winners and high quality proven breeding stock to be found anywhere in the world. We are proud of many recent high honors awarded our cypripediums among which include—**3 Gold Awards, 9 Silver Awards, 15 Bronze Awards**, to name a portion. Along with these the praise given by those who know the superior stud stock we possess is a source of much satisfaction.

CULTURE: Requirements for cypripedium are extremely simple, as they are adaptable to a wide variety of conditions, and are normally the most pest free of all the orchids. The wide selection of colors and types, along with being, perhaps, the longest lasting of all orchid flowers (6 to 8 weeks or more) makes these plants so worthwhile and valuable to both amateur and commercial grower alike.

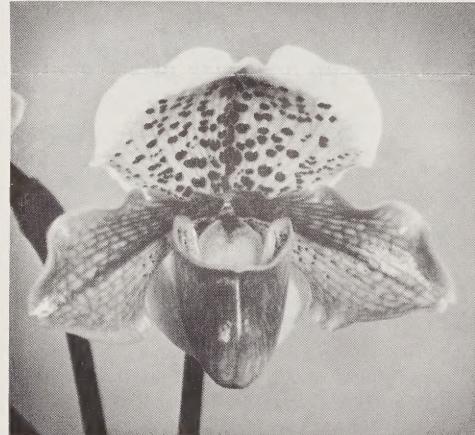

Care of cypripedium follows that of cymbidiums except that they require more shade (600 to 1000 ft. candles of light). As they have no bulbs, they require somewhat oftener watering, and should not be allowed to stay dry at the roots for more than a very short time. Conditions similar to that afforded begonias seems quite satisfactory. The plain green leaf varieties may be grown outdoors with cymbidiums; however the mottled leaf varieties require more heat, and should have a temperature of 58° F. or above. Pot grown plants benefit by repotting approximately every 2 years.

When grown in the home, they should be placed in a very light position such as an east, south, or west window. During the hottest part of the year give filtered sun if facing south, or west (such as split bamboo affords). Fertilize approximately every fourth watering with a complete nutrient solution such as Gaviota Orchid Fertilizer.

***SPECIAL — With each 10 seedlings purchased we will include one free, or on volume seedling orders the following discounts will be granted.**

on \$200.00 or over...20% discount — \$500.00 or over...25% discount — \$1000.00 or over...30% discount.

NOTE: 20% discount to dealers (including Nurseries or Florists), or quantity discount to apply, whichever is greater.

Rameses 'Pyramid'

John Doran 'Alison' A.M.-R.H.S.

NO.	NAME	SIZES & PRICES			
		Length of Leaves 1½"-2"	2"-3"	To Flower Approx. 1 yr.	Flowering Size
C-171	ACTAEUS 'BIANCA' F.C.C.-R.H.S. x TOPAZ B.A.-O.S.S.C.	3.00	4.50	8.50	15.00
	Many fine yellows should result from this combination with excellent form and large size.				
C-172	GOLDITA (Anita 'Compactum' x Golden Moon)	*	4.50	8.50	15.00
	Another excellent combination for yellow flowers of fine form.				
C-190	ANDREEN (Green Knight x Andromache)	3.00	4.50	8.50	15.00
	Two large flowering strong growing parents which should produce some very interesting colors of green, yellow, and shades of rose-mahogany.				
C-215	YUKON (Maya 'Sun Goddess' B.A.-O.S.S.C. x Doris Black)	3.00	4.50	8.50	15.00
	Another group of fine yellows will be assured from this cross.				
C-217	TEARLATH x TELAMON	3.00	4.50	8.50	15.00
	Two large flowers with long stems, combined to produce fine flowers; some will be spotted, others in a "flame" marked dorsal.				
C-224	ANDORA (Anita 'Compactum' x Doris Black)	3.00	4.50	8.50	15.00
	This group should produce flowers similar to C-215.				
C-226	W. DOWELL (Gowerianum 'Gratixiae' x Holdenii 'Westonbirt')	*	*	8.50	15.00
	The first of these albinos are now flowering and are showing up very well.				
C-244	FLARE (Andromache x Atlantis 'Red Admiral')	*	5.00	8.50	15.00
	Good red shades should predominate, in others some unusual and most attractive coloring will be found.				
C-246	MERMAID x DECAMERON 'AMERANTH'	3.00	4.50	8.50	*
	Fine flowers should result, mostly red with a few spotted types. Fine shape.				
C-247	FIREBRAND 'MONARCH' x EMILY BUTTERS	3.00	4.50	8.50	15.00
	Large, choice, nicely spotted flowers of good form should predominate.				
C-248	IMPERIAL (Andromache x Fairlight)	3.00	4.50	8.50	15.00
	Coloring here should vary—some yellow, others with "flame" dorsals.				
C-254	KLONDIKE (Telamon x Andromache, Choice)	*	4.50	8.50	*
	Large flowers of good form should prevail in greens, creamy yellows, and "flame" marked dorsal.				
C-261	TOPAZ B.A.-O.S.S.C. x TELAMON	3.00	4.50	8.50	15.00
	The very fine large white and yellow, Bronze Award, seed parent, along with the large, well formed and colored Telamon will assure many choice offspring.				
C-302	BRANDMAN (Firebrand x Alderman)	3.00	4.50	8.50	15.00
	These parents should assure large flowers of very good form, pleasingly spotted and on tall stems.				
C-329	FIREBRAND x SEVERN	*	4.50	8.50	15.00
	Both parents have very fine large spotted flowers of good substance, and will, we are sure, produce many fine types.				
C-382	BURGANDY (Ledouxiae x Calloso-Barbatum)	3.00	4.50	8.50	15.00
	Fine types similar to Cypripedium Redstart should prevail, however with stronger growth and better flowering habits on tall stems.				
C-417	GOLDEN BEAUTY 'RADIANCE' x GRACE DARLING	*	4.50	8.50	*
	Yet another yellow hybrid from which will be produced many fine types of this important color section.				
C-456	ESTRELLA, FINE VAR. x JASMINE	3.00	4.50	8.50	*
	This cross should produce many very fine yellow flowers of large size and excellent form with tall stems.				
C-463	CARMEN (Mazzepa x Atlantis 'Red Admiral')	*	4.50	8.50	*
	A combination which should provide red type flowers of large size with tall stems.				
C-465	ACTAEUS 'BIANCA' F.C.C.-R.H.S. x ESTRELLA	3.00	4.50	8.50	*
	Here again is another cross which will give lovely yellow flowers which are so much in demand at this time.				
C-473	TROJAN 'PARADE' x NENA 'MAGNIFICUM'	3.00	4.50	*	*
	Two tall stemmed large flowers of good color and form combined to give choice offspring. Spotted.				
C-512	ATLANTIS 'RED ADMIRAL' x GOLDEN MOON	3.00	4.50	8.50	*
	This group of seedlings should not only produce quality flowers, but interesting colors as well, primarily in red shades.				
C-607	JASMINE 'GOLDEN PRINCE' x WALTER MOORE F.C.C.-R.H.S.	3.00	4.50	8.50	*
	Without doubt, this cross should produce many of the finest yellows yet seen.				

C-674	PILGRIM x ABARAN		*	4.50	8.50	15.00
	This is a cross that should yield flowers of good shape and substance, with light spotted dorsals.					
C-711	LITFIELD (Bahram 'Dawn' x Amarah)		*	4.50	8.50	15.00
	Many outstanding yellows are quite certain to be flowered from this combination.					
C-908	RED KNIGHT (REDSTART 'EXBURY' A.M.-R.H.S. x MARION 'WESTONBIRT')	3.00	*	*	*	*
	A remake using the finest parents.					
C-948	TROJAN 'PARADE' x ATLANTIS 'RED ADMIRAL'	3.00	*	*	*	*
	One parent a 'red' and the other a dark form of these well known hybrids, will produce fine progeny. Some reds and some spotted.					
C-1068	DORIS BLACK x SANACDERAE 'THERESA'	3.00	*	*	*	*
	Another fine yellow combination. Both parents are extremely strong growing and heavy producers, and each bears large flowers on tall erect stems.					
	NOTE—The two smaller sizes are grown in plant bands or flats and will be shipped in plant bands or bare root unless you specify that they be potted for shipment.					

UNFLOWERED VANDA SEEDLINGS*

These Vanda Seedlings may be chosen with the utmost confidence for these crosses represent some of the finest made, with many already proven. In these hybrids the outstanding and fine influence of *V. Sanderiana* will be prominent, as in **every instance these seedlings have *V. Sanderiana*** as one parent or closely in the background, which assure many high quality flowers.

CULTURE: Quite heavy watering with fast drainage; all the light, short of burning, regular feeding with a complete nutrient solution, such as Gaviota Orchid Fertilizer approximately twice a month; relatively high humidity and 58° F. or higher minimum temperature. **COMPOST:** We recommend our M-9 compost for vandas as with other epiphytes.

EXPLANATION OF SIZES

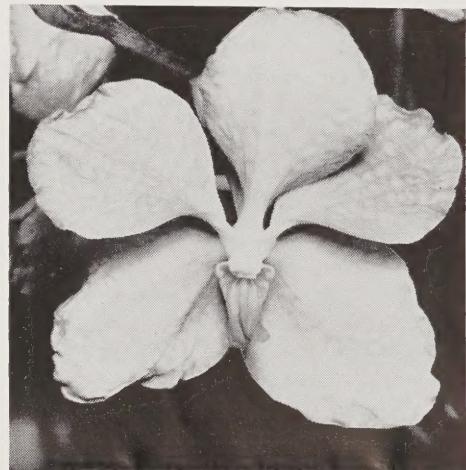

Size 5—Flowering size.

Size 3—To flower 12-18 mo.

4—To flower 6-12 mo.

2—Flower approx. 2 yrs.

NOTE: ONE FREE PLANT included with each order for 3 plants.

Vanda Coerulea

NO.	NAME	2	SIZES & PRICES		
			3	4	5
V-24	ALICE FUKUNAGA (Mem. T. Iwasaki x Sanderiana)	*	4.50	8.50	15.00
	Flower coloring as of the choice Sanderianas bearing very fine large round flowers of heavy texture.				
V-28	BILL SUTTON (Sanderiana x Manila)	3.00	4.50	8.50	*
	A fine new hybrid primarily in pink coloring. Large size and round flowers.				
V-42	MEM. G. TANAKA x ELEN NOA	*	4.50	8.50	15.00
	Flowers of good form and texture, of yellow to deep golden tones in the majority.				
V-45	ROTHSCHILDIANA (Coerulea x Sanderiana)	*	4.50	8.50	15.00
	Dark bluish purple to blue flowers of large size and round flat form. Still one of the best.				
V-52	JANE SHIMANOTO (Mary Foster x Sanderiana)	3.00	4.50	*	*
	From yellow-brown to deep red rose flowers of fine form and size expected.				
V-53	ONOMEA (Sanderiana x Rothschildiana)	3.00	4.50	*	15.00
	Very fine varieties have been flowered from this cross, with flowers of blue, rose, and mauve colors.				
V-54	ERNEST FUJINAGA (Caroline Robinson x Sanderiana)	*	4.50	8.50	15.00
	The round flowers have the widest color combination, are very free flowering and of heavy texture.				
V-55	CHERUB (Puna x Sanderiana)	*	*	8.50	15.00
	A fine hybrid to produce lovely pink colored flowers of rounded form.				
V-56	IWOLANI (Coerulea x Ellen Noa)	*	*	8.50	15.00
	With Sanderiana in the parental background providing good shape and large size, Coerulea has given beautiful blue color to this fine hybrid.				

***SPECIAL** — With each 10 seedlings purchased we will include one free, or on volume seedling orders the following discounts will be granted.

on \$200.00 or over...20% discount — \$500.00 or over...25% discount — \$1000.00 or over...30% discount.

NOTE: 20% discount to dealers (including Nurseries or Florists), or quantity discount to apply, whichever is greater.

V-57	AMOENA x ELLEN NOA	*	4.50	8.50	*
	Many lovely blue-grey to blue flower from this cross.				
V-58	KILOHANA (Manila x Rothschildiana)	3.00	4.50	8.50	*
	Choice flowers of fine shape in colors ranging from deep pink, rose, mauve, to blue. Another new hybrid of quality.				
V-59	MERVIN L. VELTHIUS (Sanderiana x Agnes Joaquin)	*	*	8.50	15.00
	Many fine large flowers of good form in pastel pink coloring should prevail.				
V-60	WIAPUNA (Ellen Noa x Rothschildiana)	*	4.50	8.50	15.00
	In this cross Sanderiana is in both parents producing flowers of heavy texture, excellent shape and of various light colors.				
V-64	MARY FOSTER x ELLEN NOA	*	*	8.50	15.00
	Another new fine hybrid to produce flowers of choice quality in shades of yellow, bronze, and red.				
V-65	WALTER DILLINGHAM (Emily Notely x Rothschildiana)	*	*	8.50	15.00
	Golden pink, salmon, and shades of blue are some of the colors expected from this hybrid. Large flowers.				
V-66	EISENHOUWER (Ellen Noa x Sanderiana)	3.00	4.50	8.50	15.00
	Golden colored flowers of excellent size, shape, and substance from this combination.				
V-67	HENRIETTA HO (Sumatrana x Sanderiana)	*	*	8.50	15.00
	Colors will range from a red-buff to brownish-yellow with flowers of fine shape—flat and large.				
V-68	SANDAMO (Amoena x Sanderiana)	*	4.50	8.50	15.00
	Another hybrid to produce fine blue flowers of good quality and form.				

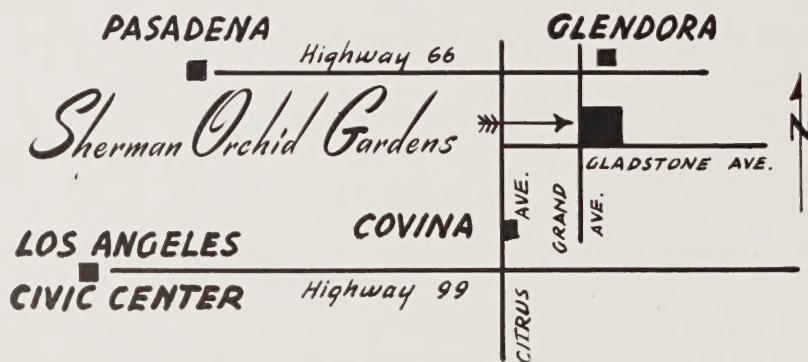

MATURE PLANTS AND PROPAGATIONS

Our stock of top quality Cymbidium and Cypripedium is well known to those who have visited the Nursery, and many fine exhibition and stud varieties are available for the discriminating Orchid fancier, and for the hybridizer. Among these are varieties which have won the highest awards wherever fine orchids have been exhibited, and whose progeny are setting new standards and winning new honors today.

Many of the world famous plants can be seen in bloom during the flowering season and you are cordially invited to visit the Nursery when in our vicinity.

We invite your inquiry for specific varieties or types, either for exhibition or stud varieties. We will also be glad to suggest individual plants or groups in any requested price range.

See our catalog for all of your supply needs, such as compost, fertilizer, labels, books, fertilizer applicators, etc.

CONDITIONS OF SALE

Payments should accompany order, unless credit has been established.

California purchasers add 3% sales tax, unless we have on file a signed resale certificate.

No substitutions made unless authorized. Please advise if we may make substitution in the event we are out of stock ordered.

Plants are offered subject to prior sale. Prices subject to change without notice. This list cancels all previous quotations. No packing charge. All prices F. O. B. Glendora. Shipments made via Railway Express, charges collect, unless instructed otherwise. Due to type and size, certain orders shipped Parcel Post, prepaid. We appreciate prompt reimbursement of these charges.

Foreign shipments will be made via Air Express, roots wrapped in moss unless otherwise specified. Hawaiian purchasers are requested to include with their order, a copy of their import permit. It may be obtained from the Board of Commissioners of Agriculture and Forestry, Honolulu.

Sherman Orchid Gardens in no way guarantees the crop produced by these plants as such conditions are beyond our control. In the event of a claim, our liability is limited to the purchase price.
